

The Foundation at Great Valley bridges the community and the Great Valley School District to help sustain our tradition of excellence in education and promote innovative opportunities that inspire our students.

The Foundation supports programs that enrich the educational experience of our students in the following ways:

- New course offerings that drive innovation in all areas of core curriculum including STEM (Science, Technology, Engineering and Math).
- Keeps important enrichment programs in our schools including music, art and physical education.
- Broadens the available elective courses and extra-curricular activities that keep our children engaged and inspired.
- Promotes the innovative ideas of our Great Valley teachers through “classroom grants.”
- Brings technology to our schools that enhances learning.

We partner with the community to bring support and funding to our schools. Our investment in the education of our children today directly impacts our community of tomorrow.

Our success is owed to our donors—Great Valley families, community members and businesses. Our community knows the value of high quality education, and our community supports our efforts to build strong schools.
